

FEDERAL PROGRAMS

SERVING FEDERAL CLIENTS NATIONWIDE FOR NEARLY 70 YEARS

Mead & Hunt has been designing federal and military facilities on time and within budget for nearly 70 years. Our program management and architecture/engineering design teams effectively adapt to the changing needs of the US government. We are ready and able to deliver quality and efficient military projects.

Our team of professionals includes former members of almost every branch of the armed forces and many current reservists. These individuals bring a wealth of knowledge that helps us serve our clients with the expertise and skill necessary to solve the unique challenges of federal programming.

Our Federal Programs professionals are located in Mead & Hunt offices across the nation, ready to serve our clients at any time. They are backed by a huge support team of Mead & Hunt specialists including in the areas of telecommunications, historic preservation, environmental, and many others.

Mead & Hunt's Joint Venture team is one of only a handful successfully selected on **two consecutive five-year NGB National A/E IDIQ contracts** – we understand the uniqueness and importance of working with our National Guard Clients.

**Mead
& Hunt**

"The design A/E played a very significant role in the overall success of the project. Their participation throughout the life of the project was instrumental in the completion of the project."

– Excerpted from Very Good PPQ
Camp Atterbury JMTC, IN

"HIRE THIS FIRM! Truly an outstanding A/E firm! Extremely responsive at addressing issues, adhered to an incredibly tight design schedule, and delivered well beyond my expectations. Knowledge of USAF facility requirements, processes and technical expertise are second to none. Design sets the Wing standard for LEED compliance, architectural excellence and quality of work environment."

– Excerpted from
Exceptional ACASS
Fresno ANGB, CA

AIRFIELD PAVEMENTS

- Fixed-wing runways, taxiways, aprons, warm-up and arm/dis-arm pads
- Rotary wing runways, helipads, aprons, taxiways and landing lanes
- Military and joint-use airfields
- Alert facilities, control towers and hangars
- Pavement maintenance plans/repair designs
- Arresting systems
- NAVAIDs and lighting
- Calibration pads
- Deicing storage and recovery
- Jet fuel storage and distribution
- Taxiway bridges
- Life cycle cost analysis
- Wildlife hazard assessment and mitigation

KEY PROJECT EXAMPLES

- Reconstruct Runway 13C/31C, Columbus AFB – \$32M
- Repair Outside Runway and Taxiways, Vance AFB – \$34M

MILITARY FACILITIES

- New construction, renovation, repurposing
- Energy efficiency/Energy modeling
- Historic preservation
- Architecture
- Mechanical, electrical, structural
- Interior design
- AT/FP and physical security
- Main Gates/ACP/ECP
- Communications and technology
- Commissioning

KEY PROJECT EXAMPLES

- Repair/Renovation of Building 29, Jefferson Barracks ANG – \$7M
- RPA Beddown, Battle Creek ANGB – \$6.2M
- Fort Polk Fire Station, USACE Fort Worth – \$12.9M

CIVIL WORKS

- Dam safety
- Flood risk mitigation
- Hydroelectric design
- Hydrology and hydraulics
- Environmental permitting
- Water/Wastewater treatment

KEY PROJECT EXAMPLES

- Natomas Levee Improvement Program, SAFCA – \$650M
- Broken Bow Closure Structure, USACE Tulsa – \$5M

ENVIRONMENTAL

- Categorical exclusions
- Environmental assessments
- Environmental impact statements
- Wetland mitigation plans
- Storm water management plans
- Glycol management
- Noise studies
- Wildlife studies
- Architectural and historical studies
- Flood plain analyses

KEY PROJECT EXAMPLES

- Environmental Impact Statement, Kodiak Airport – \$5.9M
- Wildlife Hazard Management Plan, Jackson Hole Airport – \$200K
