

Meeting Notes

Project: Combined Sewer Overflow (CSO) Control Program

Subject: Municipal Separate Storm Sewer System and Combined Sewer Overflow (CSO) Control Program Public Information Meeting

Date / Time: Tuesday, March 5, 2024, from 5:00 p.m. to 6:30 p.m.

Location: Lincoln K-8 School Library, 700 Mary Street

Attendees:

Andrea Klopfenstein	City of Peoria	Deputy Director - City Engineer
Nick McMillion	City of Peoria	Communications Specialist
Eric Carlson	Mead & Hunt	CSO Project Engineer
Tim Sumner	CMT	Stormwater Project Manager
Krista Tippey	CMT	Stormwater Project Coordinator
Eric Hansen	CMT	Stormwater Program Manager
Community Members		

The purpose of this meeting was to inform the community about the City's municipal separate storm sewer system and combined sewer overflow control program providing information on the City's storm sewer system functions and how combined sewer overflows are managed. The meeting also served as the Combined Sewer Overflow (CSO) Control Program annual update.

The meeting began with an overview of the City's stormwater and combined sewer systems. Information was presented on Peoria's separate storm sewer system including the stormwater management program, stormwater utility funding, and selected project descriptions. Information was also presented on the City's combined sewer system including a short video describing how combined sewers work, Consent Decree requirements and timeline, CSO and green infrastructure (GI) definitions, CSO control program overview and use of GI, and description of recently completed and designed projects. Similarities and differences in the stormwater and combined sewer systems were also presented. The PowerPoint slides from the presentation are attached.
